Mike Schillinger

MicroCapClub

The next feature of our Top 50 Microcap Managers list is Mike Schillinger, a private investor and Partner of MicroCapClub. After graduating from Milwaukee School of Engineering in 1989, Mike began acquiring technical knowledge from a variety of industries, all of which had significant utility for the generalist investor. Some of the sectors and industries he worked in included medical systems, semiconductors and telecommunications. Additionally, he became a Partner of MicroCapClub in 2015, two years after receiving his congratulations for taking first place in the 2013 "MicroCapClub Stock Contest with a cumulative return of +156% in his portfolio." Since then, Mike has contributed well over a dozen articles to the MicroCapClub forum discussing management, cash positions and investor behavior. As we look forward to next week's feature, keep up to date with Mike's most recent endeavors on Twitter [@MikeDDKing](#). This article reflects publicly available information only, since no conversation took place with Mike prior to publication.
