

## Mitchell Scott Choice Equities Capital

The next feature of our Top 50 Microcap Managers list is Mitchell Scott. After graduating from the University of North Carolina's M.B.A. program in 2008, "Mitchell Scott joined a small equity hedge fund focused on micro-cap stocks, but his goal went beyond investing: 'I wanted to understand the inner workings of businesses and what made them successful, positioning myself to run one before too long.' As it turns out, the investing part of it stuck and his entrepreneurial drive led him in 2017 to start Choice Equities Capital, where his long/short fund in the five years since inception has earned a net annualized 27.9%, vs. 12.0% for the Russell 2000. Focusing on micro- to mid-cap stocks, he's now seeing unrecognized upside in such areas as building supply, coffee, and inventory management."

Please note that this article only reflects publicly available information since no conversation took place with Mitchell prior to publication.
