Matt Joass

Maven Funds Management

For this week's Top-50 feature we present Matt Joass, Founder and Chief Investment Officer of [Maven Funds Management](#). Matt's ideal investment is a "small, fast-growing business, that is capital-light, with demand- and supply-side competitive advantages, high returns on incremental invested capital, little analyst coverage, deeply aligned management (typically founders), and that are top-dogs or first-movers in an emerging and important industry. Last but by no means least, the company must be trading at a discount" to his estimate of intrinsic value.

Prior to founding Maven Funds, "Matt was Portfolio Manager of Motley Fool Pro, a concentrated small-cap focused ASX investment portfolio. He is originally from New Zealand, and moved to Australia from Copenhagen, where he worked as a financial analyst in the headquarters of an international shipping giant." Additionally, Matt possesses an Honours degree in International Business from the University of Auckland and earned his Chartered Financial Analyst designation in December of 2014. When he's not working, Matt loves to hit the outdoors as an avid sailor living with his wife in Coogee Beach, Sydney.

As we look forward to next week's feature, you can keep up to date with Matt's most recent endeavors via his personal [Twitter](#) account or [LinkedIn](#). Please note that this article only reflects publicly available information since no conversation took place with Mr. Joass prior to publication.
