Andrew Page Strawman.com

This week's Top-50 feature is Andrew Page, a private investor, managing director and founder of Strawman.com. Prior to founding Strawman.com in 2018, Andrew was a Research Analyst for the Motley Fool and an Industrials Analyst for Australia's leading online broker, CommSEC.

Strawman.com is Australia's premier online investment club where "members share research & insights on ASX-listed stocks by managing Virtual Portfolios and building Company Reports. By ranking content according to performance and community endorsement, Strawman provides accountable and peer-reviewed investment insights." The website displays figures and graphics of competing members' portfolios including account balances, trades, and portfolio weightings. In fact, if you had invested \$100,000 in Strawman's virtual account beginning April 1st of 2018, you would have over \$250,000 today versus the ASX300's \$145,000. Quite the achievement!

As we look forward to next week's feature, you can keep up to date with Andrews's most recent endeavors via his personal [Twitter](#) account or [LinkedIn](#). Please note that this article only contains public information.
